

— March is National —

Women's History Month

In the mid-1970s, the United States Army was instructed to integrate women into the regular forces, eliminating the Women's Army Corps (WAC). The Chaplain Corps, part of the army since World War I, was one of the last branches to comply. **JANET HORTON** was the first woman to enter the military chaplaincy as a Christian Scientist.

Military portrait of
Janet Horton in Korea, 1979.
Unknown photographer.
